

EARLY LITERACY ACTIVITIES

Write and Send Letters

For older preschoolers, help them to write and send simple letters to their friends or close relatives. They can decorate each letter with markers or crayons.

Draw and Tell

Find a short fable, fairy tale, or any other short stories and read together with your child. After the story ends, ask your preschooler to illustrate a part of the story they like best or a favorite character. Have the child dictate to you or write a sentence that describes this picture.

Toddler Talks

As you prepare for a family dinner, talk to your child about things that are happening and utensils found in the kitchen. When your child "helps" by taking out all the plates and cups, talk about them. You may ask, "Which one is the biggest?", "What do we use a cup for?" or "What color is this one?"
