

Holiday Specials: Weather

Materials needed:

- A glass jar, a clear container, or a glass cup
- Shaving foam
- Food dye or colouring
- Water

1. First, fill $\frac{3}{4}$ of the jar with water.

2. Next, add shaving foam.

3. Then, add drops of food dye into the shaving foam. You may choose any coloured dye, and you can even use different colours!

4. Pay close attention to what happens below the shaving foam!

5. The coloured drops of dye will begin to seep down through the shaving foam and into the water below. Just like rain!
